

RESOLUTION NO. 71-2018

A RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH JONES WARNER CONSULTANTS, INC. FOR SURVEY AND DESIGN SERVICES FOR THE GARVER ROAD WATER MAIN REPLACEMENT PROJECT.

WHEREAS, an old cast iron water main along Garver Road between Reed Road and Deneen Avenue has had an adverse effect on businesses due to the periodic water main breaks; and

WHEREAS, Council desires to have survey and design services performed for the replacement of this water main.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF MONROE, STATE OF OHIO, THAT:

SECTION 1: The City Manager is hereby authorized to enter into an agreement with Jones Warner Consultants, Inc. for survey and design services for the Garver Road Water Main Replacement Project pursuant to the terms and conditions set forth on Exhibit "A" attached hereto and made a part hereof.

SECTION 2: This measure shall take effect and be in full force from and after the earliest period allowed by law.

PASSED: December 11, 2018

ATTEST:

Clerk of Council

APPROVED:

Mayor

First Reading: November 27, 2018

This legislation was enacted in an open meeting pursuant to the terms and provisions of the Ohio Revised Code, Section 121.22 of the Ohio Code.

I, the undersigned Clerk of Council of the city of Monroe, Ohio, hereby certify the foregoing (ordinance or resolution) was published as required by Section 7.16 of the Charter of the City of Monroe.

Re: Garver Road Water Main Replacement, Reed Drive to Deneen – **Survey & Design Fee Proposal**

Dear Mr. Arthur:

Jones Warner Consultants, Inc. (JWCI), a local, ODOT pre-qualified consultant, is happy to provide you with this fee proposal for approximately 1,800 linear feet of water replacement from the intersection of Garver Road and Deneen to a new valve cluster at Garver Road and Reed Drive. We have previously visited the project site together and have discussed the scope of services with you.

Garver Road Water Main Replacement Project-

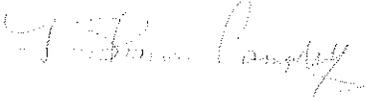

We understand the scope of this project to include the necessary survey and design for the replacement of the existing water main, approximately 1,800' in length. The scope will include a topographical survey of the project area, water main design to City of Monroe standards, the incorporation of any new water services to replace existing and any boundary resolution if necessary. The project alignment also includes a creek and railroad crossing. JWCI will coordinate any necessary permits with regards to the creek and railroad crossing. This will include the need for a review and subsequent permit from the railroad.

As previously mentioned, our design will conform to City of Monroe, Butler County, AWWA, and the Ohio Department of Transportation standards. The fees provided are JWCI design fees only. They do not include any fees that may be required by permitting agencies (if required) or any geotechnical investigations authorized by the City of Monroe. Since this is a replacement project, permit to install (PTI) from the OEPA is not anticipated.

Based on the proposed project scope of services requested for the project our lump sum fee for the project area is \$15,950.00.

JWCI is prepared to begin immediately upon your acceptance of this proposal. We anticipate a turnaround schedule for final deliverables at approximately 90-120 days from your notice to proceed. We appreciate this opportunity and look forward to working with you on this project. Should you have any questions, please feel free to call.

Sincerely,

T. Shawn Campbell, President
Jones Warner Consultants, Inc.
